

RISE AND FALL OF GREEN CITY

CHAPTER 10- 1992

The Writer could not find any 1992 Green City Minutes; however, the Annual Green City Events must have taken place as is evidenced by the documents and photos of the Green City Citizens.

SECOND EDITION OF THE SCURRILOUS 92.07.01

GREEN CITY
N E P R A V D A

**July
Exclusive**

Probal Shoots Artesian
The undaunted Probal, meets an artesian face to face in Yellowstone. We understand it was Probal who got in the first shot.

*** Big Foot
Tracks Spotted ***
Tracks were recently spotted near Green City that were clearly made by someone with big feet. Int is now abundantly clear (from loose lips) that the Yenti have been slinking around our fair city, trying to regain control by seeding their favourite sons for a gigantic land grab.

====

"Gala Celebration Planned"

The assumed gang of eight have successfully completed one year of doing absolutely nothing at Greed City and thoroughly enjoying it. At a recent meeting on Tenth Street, a compromise was put forward to the Yenti for a two year term but was blatantly turned down by an orange haired cheifitan wearing an East Indian designer sari.

====

AMAZING VRESKIN
Doubles as Toe Masseuse

With incredible psychic powers has revealed two super secrets. The first one is so secret that it cannot be revealed here. The second, as predicted by Vreskin Toe Masseuse, is that Katya Evanova, one of two, is very likely to get preggers.

We think the box that the orange hair originally covered, contained a very toxic chemical that had a debilitating effect on the wearer.

Probal's purple socks are hanging in readiness for making the big flash at Green City. Neighbours are complaining but to no avail. Secret hoping that the Pulp Mill starts up soon.

N O T I C E

Dr. Probal, newly appointed Minister of the Inferior, has issued a warning that any Yenti planning on attending the Green City Celebration, had better apply for a visa. The visa has to be current and validated. The visa has to be accompanied by clinical proof that the Yenti have eliminated any possibility of getting into a shitty situation.

*** HATCHES, MATCHES
& DISPATCHES ***

Prior to beau going into restaurant for a meal, he gives his date a stick of Juicy fruit gum and tells her to wait in the car. Dayareea Kokaneeova claims that you were lucky to even get a stick of gum.

====

LETTER TO THE EDITOR

"BLIND INTESTINE"

Due to the circumstances, Fred would like to control, we were unable to take part in the Junta Dribilations. However, we would like to add a blind intestine, otherwise known as a appendix, to the impotent dribble. It reads as follows: We are rulered by the only kind of Junta that was dribbled at us - The Russian Junta, not the South American, familiar to most. The Russian Junta says - "Yenti that are not Yeti, next time for them is Siberia, not Green City. Maybe even this time, depends on perestroika or perestaltis. by the way, please refer tot his as blind intestine number one (#1)

**Freddie Playsomore
& Anna Manyana
(from across the other side)**

It has been reported that a certain Mrs. Yenti has been making a last ditch effort to eliminate all flea markets by cornering the market. The booty is being hoarded in lovely Tsawwassen but at last report, the area has sunk a full 2 inches.

====

Who's hosing who?
Mayor that was - has former first lady maneuvering hoses while he goes fishing. Nothing has changed, has it??

Speaking "MEOW MEOW" definitely ranks in the same leagues as keeping a coat hanger handy in trunk of car in ease of locking your keys in the car!! For full details, reserve a seat at Green City for the next thrilling episode of the "Missing Cat".

====

E D I T O R I A L

Rationalizing (or trying to) the insidious Resurrection, E-rection and A-rise proclamation is tantamount to unravelling the Constitutional Crisis. A mysterious messenger that posts these slanderous and libeous lies, travels only by night in order to hide a shameful face and to avoid the truth.

Green City was saved from total demise by the heroic Group of Eight plus "The Witness". The former Mayor and his entire council, leaving Green city for political meetings with Harcourt and Shihota has proved the instability of the council. Harcourt and Shihota are well known to screw up on their own without the help of a corrupt and graft riddled regime.

The above mentioned proclamation is a perverse abomination, that attacks the good citizens of Green City with asinine and caustic statements and tries to besmirch their impeccable character. Nothing short of a complete round of hot Irish coffees, served San Francisco style, will come close in righting this horrendous wrong.

Editor

Dated photo:

Fred Arishenkoff is prepared to repeat his marriage vows with his lifetime sweetheart and is ready to knee on the carpet.

Witnesses are L to R: Elmer Vergin, Elaine Boolinoff, David Popoff, Kathy Popoff, Kimball Verigin, Susan (neePopoff) Voykin, Keith Voykin

The Writer was not able to find evidence of a Permit from Darkwoods. Obviously as the D8 caterpillar approached the parking lot, many interpreted that to be the Property Owner establishing their authority over their lands.

The concern was for naught as the Excavator was just a Logging Contractor moving onto his Tree Limit.

Betty and Bill Zarikoff are still very much in love in Green City. What a beautiful place that God created for people.

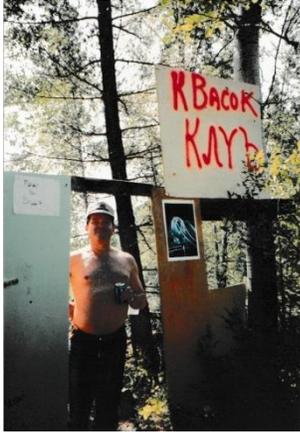

The Green City Mascot always enjoyed his time at Green City. He is not fussy about what brand of beer nor Brewing Company that is a preference as long as it keeps coming.

Lawrence Popoff shows off his new property at Green City to Kathy who is very appreciative of all the base work preparation Lawrence did. He dug down and removed all the roots and rocks. He hired a local Contractor to bring in some soft topsoil to underlie the tent.

The special finishing touches of a painted picket fence at the entry was what "sold" the site development to Kathy.

Note the red carpet in the entrance way as well as the transplanted shrubbery along the walkway. It was always impressive how the Green City Citizens took pride in their properties. It will be a great time tonight, I suspect.

New businesses opening this year suggests that Green City is alive and well under the current Green City Council to have entrepreneurs consider the great financial risks in this isolated community.

I am sure that the standard neighborhood survey was undertaken before construction of facility of dubious character judging by the sign. Those you who may need assistance in the Russian to English translation for “Kvasook Cloob” or at best “Pickle Club”.

The dress code of the Proprietor, Lorne Tamelin, immediately suggests and “party place” as he is already partaking in the expected profits.

The experienced, Mixologist, Lawrence Popoff and his assistant Elmer Verigin, apparently travelled all the way to San

Francisco with Bar Maid Kathy Popoff, to observe the professionals mix Irish Coffees in the Irish Pub across the street from the Street Car Turnaround.

Obviously, they are conducting a practice “dry run” before the doors open to the public.

The place started to fill up fast as everyone was ready for the special Irish Coffees. Seating was discretionary and there wasn’t any discrimination as to sex nor nationality as witnessed by the clientele. Fred Voykin on the left, with Ann Chursinoff, Larry Sapriken and Nina Voykin. Moe Zibin appears to be staying away from the spotlight as his lucrative Teacher’s Pension may be affected by his retirement lifestyle choices.

The place started to fill up fast as everyone was ready for the special Irish

Larry Sapriken decided to improve the water system somewhat with a water container equipped with a “Krantek” (tap). The ladies in the kitchen are overjoyed that finally someone listened to their complaints about inadequate kitchen equipment.

The citizens of Green City sit around and discuss the exciting events that are still on the weekend agenda.

(Need to identify

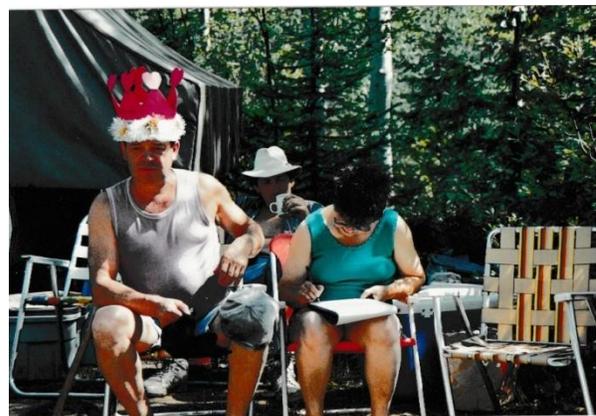

the circle)

Later that evening __?__. Fred Arishenkoff, Kyle Burk, Tamara Verigin-Burk are enjoying the stories.

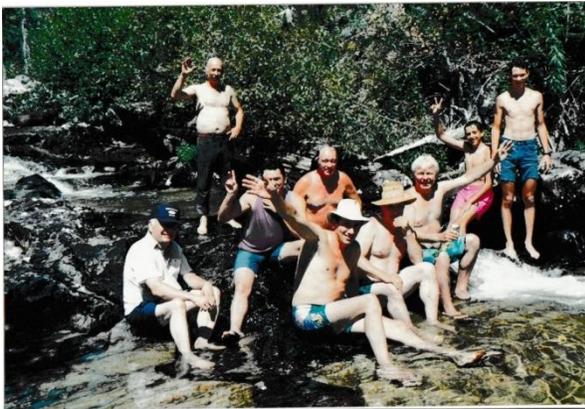

There were many “campfire” stories offered by the best. Some were “Tall” and some were “Fishy” but all appreciated by the audience.

Although this photo, confirms that a Council Meeting was in session as the Mayor and Secretary seem to be performing their parliamentary obligations but the Writer was unable to find any evidence of minutes in the Municipal official records of Green City

Two duelling Mares, one quotes from Shakespeare (Fred Arishenkoff) and the other "off the Cuff" (Lorne Tamelin) but has big Lookers

Green City Aquatic Center is busy this day with Lawrence Popoff of the left, Larry Sapriken, Lorne Tamelin, __?__, Bill Zarikoff, Elmer Verigin, Fred Arishenkoff and Craig Sapriken
